

ESTABLISH MAX

Establish Max is a **convenient, low-foaming premix** combining ammonium sulfate, nonionic surfactant, dispersant, and sugar-based enhancement technology. Designed to condition hard water and optimize the spray tank, Establish Max improves herbicide uptake, translocation, wetting, and penetration for more consistent weed-control performance.

Key Benefits

- Combines nonionic surfactant with 2.8 lbs. of AMS per gallon in one convenient premix
- Conditions hard water to help optimize spray performance
- Improves herbicide uptake and translocation through sugar-based enhancement technology
- Improves wetting and penetration with a nonionic surfactant
- Dispersant technology improves tank-mix compatibility with SC and EC pesticides
- Helps reduce drift and foaming
- Compatible with most herbicides

Recommended Crops

Row crops, Cereals, Specialty crops, & Forages

Principal Ingredients

Ammonium Sulfate, Alkyl Polyglucoside, Alkyl Pyranoside Derivatives, Alkyl Phosphate Ester, and 1,2,3 Propanetriol	50%
Inert Ingredients	50%
Total	100%

EVOLVE CROP SYSTEMS

ESTABLISH MAX

Water Conditioner and Non-Ionic Surfactant

PRINCIPAL FUNCTIONING AGENTS

Ammonium Sulfaite, Alkyl Polyglucoside, Alkyl Pyranoside Derivates, Alkyl Phosphate Ester, and 1,2,3 Propanetriol 50%
Inert Ingredients 50%
Total 100%

GENERAL INFORMATION

Establish Max is a convenient-to-use low foaming premix of ammonium sulfate, nonionic surfactant, dispersant and sugar release technology to help condition hard water and drive herbicide uptake and translocation. This product helps improve weed control with glyphosate and glufosinate applications by conditioning water in the tank mix. Sugar Release Technology increases uptake and translocation of herbicide to increase performance.

DIRECTIONS FOR USE

This product may be used at a rate of 1.25-5.0% v/v. 2.5-5.0 gallons per100 gallons of spray solution. Follow herbicide label for specific rates,mixing instructions and other precautionary instructions.

THIS PRODUCT PROVIDES:

- 2.8 pounds of dry ammonium sulfate per gallon.
- 1 pint of nonionic surfactant in a 1.25 gallon per 100 use rate.

COMPATABILITY: This product is compatible with most pesticides. However, if the desired combination has not been previously used, a compatibility test is recommended.

MIXING: Fill spray tank half full of water and begin agitation. Add

pesticides as directed by label or in the following sequence and continue filling tank: (1) dry flowables or water dispersing granules, (2) wettable powders, (3) flowables, (4) solutions, (5) emulsifiable concentrates. Continue agitation until spray solution is completely mixed. Add the recommended amount of this product. Continuous agitation of finished spray is recommended. If spray solution has been allowed to stand, thoroughly agitate and remix before application.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMAL: WARNING: Causes eye irritation. Wash thoroughly after handling.

ENVIRONMENTAL HAZARDS: Avoid release to the environment.

First Aid: Have the product container or label with you when calling a poison control center or doctor or going for treatment. IF IN EYES: Rines cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing. If eye irritation persists, get medical attention.

Storage and Disposal: Do not contaminate water, food or feed by storage or disposal. Store in closed, original container away from children, animals, foods, feeds, seeds and incompatible materials. Handle in accordance with Precautionary Statements. In the event of spillage or leakage, soak up the material with absorbent clay, sand, sawdust or other absorbent material. Scrape up and dispose in accordance with Product Disposal.

PRODUCT DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The

Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

WARRANTY: Evolve Ag warrants that the Product conforms to the chemical description given on this label and is reasonably fit for the purpose stated when used in accordance with label directions under normal conditions of use. EVOLVE AG AND SELLER MAKE NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. NOR IS ANY REPRESENTATIVE OF SELLER AUTHORIZED TO MAKE ANY SUCH WARRANTY OR MODIFY THESE TERMS. Buyer and User accept all risks arising from any use of this product for any consequential, special, incidental or indirect damages.
