

EXHIBIT® - ZINC 9%

Exhibit Zinc 9% is a highly available liquid zinc solution designed to correct and prevent zinc deficiencies in early-season growth. Essential for root development, enzyme activation, and hormone production, zinc plays a critical role in establishing strong, uniform stands. Exhibit Zinc 9% helps young plants get off to a faster, healthier start—especially in cool, wet, or high-pH soils where zinc tie-up is common.

Key Benefits

- Corrects zinc deficiency quickly with a fully available 9% zinc solution
- Strengthens early root development and promotes vigorous emergence
- Supports enzyme activity and hormone balance for healthier growth
- Improves stress tolerance in early-season conditions
- Ideal for high-pH, sandy, or low-organic-matter soils where zinc availability is limited
