

eXHIBIT - 360

Reduce Plant Stress - Protect and Enhance Genetic Potential

Exhibit-360 is specifically formulated to protect and reduce the yield loss of crops under abiotic stress conditions.

By combining nutrients with stress mitigation ingredients, Exhibit-360 allows growers to see more value in the nutrients made available to the plant.

Key Benefits

- Improved plant health during critical growth stages.
- Shields impact of abiotic stresses, to protect yield potential.
- Promotes vegetative and reproductive growth during key rain events on stressed acres.
- Aids in herbicide metabolism within the plant.
- Reduced risk of micronutrient deficiencies to drive for higher yields.

Micronutrients

- Sulfur aids in protein and enzyme synthesis.
- Boron is essential to new growth, pollination, and reproduction.
- Stabilizes cell walls, which provides plant structure and integrity.
- Manganese aids in herbicide metabolism, chlorophyll formation and plant respiration.
- Molybdenum drives root nodulation growth and enhances nitrogen utilization.
- Zinc helps plants withstand environmental stress.

Directions for Use

First application made during early vegetative stages. May repeat applications at 7-10 day intervals as required. Compatible with many herbicide and / or fungicide tank mix partner products.

Read individual product labels for instructions.

Use Rate:

Apply 16-32 oz/ac and repeat as needed. For best results apply prior to stress events or during rapid growth.

Other Considerations:

Spray volume (ground application)
- Minimum 10 gallons per acre (GPA). Spray volume (aerial application) - Minimum 2 gallons per acre (GPA). Labeled for Chemigation. Avoid freezing.

Recommended Crops

Corn, soybeans, wheat, grain sorghum, and alfalfa

Active Ingredients

Nitrogen (N)	5.0%
4.0% Urea Nitrogen	
1.0% Other Nitrogen	
Sulfur (S)	1.0%
Boron (B)	0.13%
Manganese (Mn)	0.50%
Molybdenum (M)	1.0%
Zinc (Zn)	0.50%

Derived from urea, zinc sulfate, manganese sulfate, boric acid, sodium molybdate.

Also Contains Non-Plant Food Ingredients

L-Proline	5,000 ppm
Phenolic Acids	19,800 ppm

Stress Mitigation Value

L-Proline: an anti-stressor (osmotic regulator) amino acid accumulated by plants to fight off abiotic stresses. Plants primed with Proline are tolerant to stress before the event occurs. Proline is an antioxidant that regulates the balance of active oxidation in plant cells through a synergistic relationship.

Phenolic Acid Compounds: metabolites play an important role as local or systemic resistance builders in protecting plants against pathogens. Phenolic Acid compounds are more potent than humic and fulvic as they are naturally released from the plant's seeds, roots, and/or residue decomposition to improve tolerance to stress and signal cell wall growth.

Stress Mitigating Nutrition

GUARANTEED ANALYSIS 25-0-0

Nitrogen (N)	5.00%
4.0% Urea nitrogen	
1.0% Other nitrogen	
Sulfur (S).....	2.00%
Boron (B)	0.13%
Manganese (Mn)	0.50%
Molybdenum (Mo)	0.013%
Zinc (Zn)	0.50%
Derived from Urea, Zinc Sulfate, Managanese Sulfate, Boric Acid and Sodium Molybdate.	

GENERAL INFORMATION

Exhibit-360 is specifically formulated to protect and reduce yield loss of crops under abiotic stress conditions such as drought, low or high temperature, deficient or excessive water, high salinity, heavy metals, and ultraviolet radiation.

RATE RECOMMENDATIONS

Apply 1 qt/acre and repeat as needed. Exhibit-360 is more effective if applied prior to stress events or during rapid vegetative growth stages. Application may also be beneficial during early to mid-flowering growth stages.

MIXING AND HANDLING INSTRUCTIONS

Fill mix tank with half of required water volume and begin agitation. Add products in this order, mixing thoroughly after each addition: adjuvants, pesticides, then fertilizers. Fill tank with remainder of water and continue agitation until solution is completely mixed. Check chemical mixture compatibility using a jar test prior to application.

Attention: This product contains boron; use on any crops other than those recommended may result in serious injury to the crops. The application of fertilizing material containing molybdenum (Mo) may result in forage crops containing levels of molybdenum (Mo) which are toxic to ruminant animals.

PRECAUTIONARY STATEMENTS

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves/clothing and eye/face protection. Do not breathe mist or vapor. Wash thoroughly after handling.

First Aid: If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor.

Storage and Disposal: Do not contaminate water, food or feed by storage or disposal. Keep out of reach of children. Store locked up and away from heat, direct sunlight and incompatible materials. Best stored in an enclosed building capable of maintaining temperature below 110°F. Follow first in, first out inventory management practices. Avoid release to the environment. Dispose of contents/container in accordance with local authority requirements.

WARNING: Causes skin irritation. Causes serious eye irritation. Suspected of damaging the unborn child.

WARRANTY: Directions for Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result, because of such factors as weather conditions, presence of other materials, or the manner of use or application all of which are beyond the control of Evolve Crop Systems or the Seller. All such risks shall be assumed by the Buyer. Evolve Crop Systems warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use subject to the inherent risks referred to above. Evolve Crop Systems makes no other express or implied warranty. In no case shall Evolve Crop Systems or the Seller be liable for consequential, special, or indirect damage resulting from the use or handling of this product. Evolve Crop Systems and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing Conditions of Sale and Warranty, which may be varied only by an agreement in writing signed by a duly authorized representative of Evolve Crop Systems.
