

## XHIBIT - NB

Exhibit-NB is a slow-release nitrogen and boron blend designed to feed crops steadily through key growth stages. With 25% nitrogen and 0.5% boron, Exhibit-NB supports strong vegetative growth, consistent stalk development, and improved nutrient uptake. Its controlled-release profile helps reduce nitrogen loss while giving plants the sustained nutrition they need to perform under stress and finish strong.

### Key Benefits

- Provides slow-release nitrogen for steadier feeding and improved nitrogen efficiency
- Includes boron to support nutrient movement, cell strength, and reproductive development
- Promotes stronger vegetative growth during rapid-growth stages
- Improves crop performance under stress, helping maintain yield potential
- Complements fungicide and insecticide passes, maximizing efficiency of in-season trips

#### Active Ingredients

Nitrogen (N).....	25%
Boron (B).....	0.5%

## Slow Release Nitrogen Fertilizer

### GUARANTEED ANALYSIS 25-0-0

Total Nitrogen (N) .....	25.0%
17.2% Urea nitrogen	
7.8% Polymethylene Urea	
Boron (B) .....	0.50%

Derived from Urea, polymethylene urea and sodium borate.

### GENERAL INFORMATION

Exhibit-NB is a slow release nitrogen product with boron that is targeted for foliar nutrition. Exhibit-NB provides a ready source of N over extended periods of time and is widely adapted to mixing with other micronutrients and crop protection chemicals.

### RATE RECOMMENDATIONS

ALFALFA: 4-6 quarts per acre. Apply after each cutting when sufficient foliage is present.

SOYBEANS AND DRY BEANS: 4-6 quarts per acre. Apply at early flower and repeat in 10-14 days.

CORN: 3-5 gallons per acre applied at V-5 to V-8 as a foliar application for use as a partial side-dress Nitrogen (N) replacement. 1-3 gallons per acre applied as a foliar application at pre-tassel as a Nitrogen (N) supplement. 1-2 gallons per acre applied as a foliar application when used with fungicides, insecticides.

OTHER CROPS: 4-6 quarts per acre. Apply when sufficient foliage is present, try on a small area until more experience and trials have been completed to determine if a higher rate is desirable.

Optimum rate of application will vary depending on treatment interval, soil properties (such as pH, organic matter content, texture), weather conditions, time of year, plant species and its nutrient requirements. For best results, follow soil/tissue test recommendation.

### MIXING AND HANDLING INSTRUCTIONS

Fill mix tank with half of required water volume and begin agitation. Add products in this order, mixing thoroughly after each addition: adjuvants, pesticides, then fertilizers. Fill tank with remainder of water and continue agitation until solution is completely mixed. Check chemical mixture compatibility using a jar test prior to application.

Do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rains are expected. Apply this product only to your lawn/garden. Check with your local Cooperative Extension Agency to obtain specific information on local turf best management practices.

Precautionary Statements: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear eye/face protection and protective gloves/clothing. Wash thoroughly after handling. First Aid: If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention. If on skin: Wash with plenty of water. Take off contaminated clothing and wash before reuse. If skin irritation occurs, get medical attention. If exposed or concerned, get medical attention. Storage and Disposal: Do not contaminate water, food or feed by storage or disposal. Keep out of reach of children. Store locked up. Dispose of contents/container in accordance with local regulations.

WARNING: Causes serious eye irritation. Causes skin irritation. Suspected of damaging fertility or the unborn child.

WARRANTY: Directions for Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result, because of such factors as weather conditions, presence of other materials, or the manner of use or application all of which are beyond the control of Evolve Crop Systems or the Seller. All such risks shall be assumed by the Buyer. Evolve Crop Systems warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to the Directions for Use subject to the inherent risks referred to above. Evolve Crop Systems makes no other express or implied warranty. In no case shall Evolve Crop Systems or the Seller be liable for consequential, special, or indirect damage resulting from the use or handling of this product. Evolve Crop Systems and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing Conditions of Sale and Warranty, which may be varied only by an agreement in writing signed by a duly authorized representative of Evolve Crop Systems.
