

HOMESTEAD CORN COMPLETE

Maximize Stand Establishment and Early Season Growth

Homestead Corn Complete is a best-in-class talc/graphite combination that ensures optimum performance in today's planters. Can take the place of any seed fluency agent.

A one-of-a-kind base that includes micronutrients, enzymes, and biologicals. This complete package is essential in providing the building blocks to drive fast emergence and strong, healthy plants. Evolve Corn Complete delivers industry leading volume of zinc to the seed furrow, for uniformed stand establishment.

Key Benefits

- Highly effective at delivering a high-volume of zinc to the furrow.
- Generates massive root structure.
- Boost emergence and early season vigor.
- Increases early-season iron, manganese, boron and zinc uptake.
- Position the crop to manage season-long stressors and optimize genetic potential.
- Helps plants fix nitrogen and solubilize nutrients.

Directions for Use

Open the pail, add any supporting products. Shake pail prior to use to ensure product is mixed. For optimal performance, please apply to seed within 14 days.
