

## Advanced Compatibility Foliar Nutrition

NKB is a new high efficiency foliar potassium formulation in the top-selling EXHIBIT product line. It is a 2-0-16 formulation with a spike of boron and is ideal for in-season nutrient applications on specialty crops and row crops.

### Benefits of Foliar Feeding

Foliar feeding is one of the most efficient ways to supply nutrition to crops during critical growth stages. Applying nutrition to plant leaves allows the plant to immediately absorb nutrients, which promotes better plant uptake, better overall plant health and increased yield potential.

### Key Benefits

NKB provides high quality, readily available nutrients to plants in a highly efficient and mobile form. It is also formulated for superior tank mix compatibility with fungicides, insecticides, glyphosate and select dicamba herbicides.

- Superior tank mix compatibility over a broad pH range.
- Maximum nutrient mobility and efficiency, which allows for a lower application rate per acre.
- Low salt index and low impurities.
- Contains a proprietary, high efficiency form of boron.
- Healthier plants, stress mitigation, enhanced quality, and yield.

### Application Recommendations

#### Field, Row, Vegetable and Vine Crops:

Apply 1-2 quarts per acre per application throughout the growing season. More frequent applications at 1 pint per acre may be needed to correct deficiencies once they occur.

**Aerial (plane, helicopter & drone) Applications:** Apply 1-2 pints per acre. When applying fungicide and insecticide chemistries be sure there is sufficient water volume to properly disperse products.

Disperse suspension concentrate and emulsion concentrate based products prior to adding NKB.

#### Guaranteed Analysis

2-0-16

Nitrogen (N) .....	2.0%
Urea Nitrogen .....	2.0%
Soluble Potash (K <sub>2</sub> O) .....	16.0%
Boron (B) .....	2.5%
Molybdenum (Mo) .....	0.2%

*Derived from urea, potassium borate and sodium molybdate*

### Plant Nutrient Functions

The nutrient combination in NKB was carefully selected and developed for specialty crops and row crops.

The agronomic benefits of these nutrients include:

- Boron: essential to new growth, pollination and reproduction.
- Stabilizes cell walls, which provides plant structure and integrity. Also aids in nitrogen assimilation and root nodulation formation, which enhances nitrogen uptake and utilization.
- Potassium: assists with drought tolerance, nodulation, lodging resistance and defense against insects and diseases.
- Critical to high yields.

### GENERAL INFORMATION

Exhibit-NKB is specifically formulated for foliar delivery of potassium and boron.

### RATE RECOMMENDATIONS

#### FIELD, ROW, VEGETABLE AND VINE CROPS

Foliar Applications: Apply 1-2 quarts per acre per application throughout the growing season. More frequent applications at 1 pint per acre may be needed to correct deficiencies once they occur.

Aerial (plane, helicopter & drone) Applications: Apply 1-2 pints per acre. When applying fungicide and insecticide chemistries be sure there is sufficient water volume to properly disperse products. Disperse suspension concentrate and emulsion concentrate based products prior to adding Exhibit-NKB.

Optimum rate of application will vary depending on soil properties (such as pH, organic matter content, texture), weather conditions, time of year, plant species and general health. For best results, follow soil/tissue test recommendation.

### MIXING AND HANDLING INSTRUCTIONS

Fill mix tank with half of required water volume and begin agitation. Add products in this order, mixing thoroughly after each addition: adjuvants, pesticides, then fertilizers. Fill tank with remainder of water and continue agitation until solution is completely mixed. Check chemical mixture compatibility using a jar test prior to application.

ATTENTION: This product contains boron; use on any crops other than those recommended may result in serious injury to the crops. The application of fertilizing materials containing molybdenum (Mo) may result in forage crops containing levels of molybdenum (Mo) which are toxic to ruminant animals.

Precautionary Statements: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves/clothing and eye/face protection. Avoid breathing mist or vapor. Use only outdoors in a well-ventilated area. Wash thoroughly after handling.

First Aid: If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention. If on skin: Wash with plenty of water. Take off contaminated clothing and wash before reuse. If skin irritation occurs, get medical attention. If inhaled: Remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell. If exposed or concerned, get medical attention. Storage and Disposal: Do not contaminate water, food or feed by storage or disposal. Keep out of reach of children. Keep container tightly closed. Store locked up in a well-ventilated place.

Store in original container. Store in a well-ventilated area. Storage temperature: 40 F to 100 F. Dispose of contents/container in accordance with local regulations.

DANGER: Causes serious eye irritation. Causes skin irritation. May cause respiratory irritation. May damage fertility or the unborn child.

WARRANTY: Directions for Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result, because of such factors as weather conditions, presence of other materials, or the manner of use or application all of which are beyond the control of Evolve Crop Systems or the Seller. All such risks shall be assumed by the Buyer. Evolve Crop Systems warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use subject to the inherent risks referred to above. Evolve Crop Systems makes no other express or implied warranty. In no case shall Evolve Crop Systems or the Seller be liable for consequential, special, or indirect damage resulting from the use or handling of this product. Evolve Crop Systems and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing Conditions of Sale and Warranty, which may be varied only by an agreement in writing signed by a duly authorized representative of Evolve Crop Systems.
